-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Coster (4740188). Regarding claim 1, Coster discloses a building block element having a pair of long and short sides (Fig. 1A) and a thickness (Fig. 1B). The lengths of the long and short sides of the element are greater than the thickness of the block (Figs. 1A & 1B). The building block element has a slot (22) formed on a selected location having a long and short side with lengths greater than or equal to the thickness of the block. In regard to claim 2 the slot is located in the center of the building block (Fig. 1A). Regarding claim 3 the element has a plurality of consecutive slots formed in the center of the block

(Fig. 1A). Regarding claim 4, one of the long sides has at least one notch (Fig. 1A). In regard to claim 5 both long sides of the block have at least one notch (Fig. 1A).

Regarding claim 6, one of the short sides has at least one notch (Fig. 1A). In regard to claim 7 both short sides of the element have at least one notch (Fig. 1A).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Blanco (3882630), Szoradi (5215490) and Zheng (6116981) disclose building block elements having slots and notches.
